Demogratio Central Committee Meeting.

The members of the Territorial Democratic Centra Committee, are requested to meet at the Hernder House, in Omaha, on Tuesday the little day of June A. D. 1860, to take such action as may be deemed not enery for the organization of the Democratic party said to fix upon the time and place of holding a Covention to numbrate a Democratic Camfidate for Dele gate in Congress, and transact such other business a

may be deemed necessary at that time. B. P. BANKIN, Ch'n. H. C. BLACKMAN, Sorry.

Day The Hernid is rather short of news this week, owing to the illness of the editor. He had an attack of the Ague but is nearly right again.

WRERN WILL THE DEMOCRATIC TERRITORIAL CONVENTION BE HELD!

Without any ifs or ans we say at Daketa City. Good and sufficient reasons why wis should be the place, the central committee enght to name for holding the convention, can be readily adduced. If it was for nothing else but to compliment the sterling Demorracy of the country north of the reserve, who polled 274 of the 300 democratic majority in the Territory, last fall. But twenty-six democratic majority was polled in the balance of the Territory, including the Fort Kearney der where he had bought an estate, and will cote. With judicious management on the probably make trouble yet for Costa Ricart of the committee, and the selection of a ... are hundred democratic majority, in the ere of the party to consider this well, and been extremely servicable to that country loose by neglect or slight what they can and gain elsewhers.

negisered by democrats in power, and will not supply of water for purposes of trigation, in stand it quietly much longer. If everything is to be centered at Omaha, Plattsmouth and the east and west coast of South America by tween the acts of a five act tragedy; or as-Nebraska City, there will be some kicking a road across the Andes. The steam lines on against the pricks. We know how hard it the South Pacific and the lines of railroad in was to get some of those democratic gentlemen who figured in the last legislature, to turbed of the South American States. CHARLESTON CONVENTION.

The Charleston Convention had done nothing of any importance, at our latest advices. Plearney of Arkansas was chosen temporary chairman, and Caleb Cushing was elected per manent chairman. The Bouglas delegates from Illinois, New York and Maryland were admitted. No Platform had been agreed on ordered just now, and has sent Commissionup to Friday night-a week ago-and the ers to the United States to borrow a million. convention adjourned over until Monday. No bullots had been taken on President.

BATES HOUSE

This hotel is bound to sustain the name it hears. It already has the reputation of being equal, if not superior to any other house in Nebraska. Commodious and airy, and laid has not falled to attract due attention.

Recently Col. Bates has been me the landlord of it, and the style he keeps it in warrants us in saying he can "keep hotel." Determined that it shall maintain its reputation, and be unsurpassed by any other house in Nebraska. he has spared no pains in fitting it up to accommodate his guests in tip-top style. Those acquainted with the Col will make no lack of patronizing him; while the traveling public will find him courteous, obliging, entertaining, and an excellent caterer to the wants of the inner man.

The bar is amply supplied with fluids of the best quality, and imbibers of the invigorating, if disposed to partake for "the stomach's sake," or to "drive dull care away," will find something there to take that is good, without subjecting them to bust head afterwards.

BOOGE &U.

This enterprising firm in Sioux City, have not exactly opened a menageric on Pearl Mtreet, but they have opened the largest stock of Dry Goods' graceries and provisions ever seen in this section of the Globe. People are rushing in, in crowds, every day, and rushing which some ladies have worn, full and gathout again with armfuls. It costs nothing to ered at the bottom, are 'unmentionable.'

ZIEGLER & ECKHART.

This cstablishment is now willing and able Iowa or Nebraska, in selling goods. Their stock of merchandize is large and varied, and as can be bought elsewhere, and parties buying of them are sure to save ferryage at least. Call and see their stock.

How to do up Shirt Bosoms .- We often hear ladies express a desire to know how the gloss is produced on new linen bosoms, ect., and in order to gratify them we subjoin the fol-

lowing receipt: "Take two ounces of white gam aradio powder, put in a pitcher and pour on a pint or more of boiling water according to the do-gree of strength you may desire; let it stand night, and in the more ag pour it carefully from the dregs into a clean bottle and cork it for use. A tablespoonful of this gum water, stirred into a pint of starch, will give lawns, either white tr printed, a look of newuses of which nothing else can restore them aftor they have been washed."

SOUTH AMERICAN NEWS. The arrival of the Ariel at New York brings

Isthmus date to the 10th inst., and later news from South America.

Hop. Beverly L. Clark of Kentucky, United States Minister Resident to Guatemala and Honduras, who has been suffering several months from diabetes, died on the 17th of His funeral veremonies were conducted with great pump by the Catholic Clergy, and of course most of the Government officers and foreign diplomatic agents assisted in the rites. Mr. Clara's wife and family came passengers on the Guatemala and leave for home to day. The report is generally credited in Guatemala that he was absolved from his marriage rows by the Gwarch, two days before his death, that he might join the Franciscan Monlie. Mr. Clark made a public profession of Catholicism in that gify on the 14th of December last, and was baptised by the Bishop of Nicaragua, and took the baptismal name of Augustin. ...His remains were deposited in the pantheon of the church of San Francisco. Mr Clark is the third United Stales Minister who has died in Guatemala, within the last four years. Mesers Venathe

and Malin have preceded him to the tomb. Salvador, one of the South American States, hows signs of improvement in the increase of agricultural industry. The cultivation of sugar had been stimulated by the opening of steam navigation with Panama, but the President of the country, Barries, was adding so largely to the military as to diminish the number of hands. He is another of the pesta of that part of the world—a military chief who is siming to make himself Dictator.

Effect of the Cemsus of 1860.

The New York Times makes an elaborate and candid showing of the cff ct of the census nation's mourning. As a mark of respect due of this year on the representation of the several States in Congress. It figures that the States which will lose representatives are Alabama, 1; Connecticut, 1; Georgia, 1; Ken- inst. eut with an eye to comfort and neatness, it has elicited frequent flattering notices from all its guests, while its architectural beauty has not falled to attract due attention.

1. All the old and large States of the Union, without exception, lose ground relatively, and most of them positively.

2. The South loses ground largely; the new

State of Texas, having five-fold the territory of the old States, and lying west of the Mississippt, is the only one gains.

8. The only part of the Union which positively gains is the Northwest-Missouri being properly included in that.

4. The Northwest positively gains 15 representatives and two Senators in Minnesota. 6. The slave States lose 11 representatives and gain 4, a positive loss of 7. The free States gain 14 and lose 10, being a positive gain of 4, with 4 Senators in Minnesota and Oregen. The admission of Kansas and Nebraska, which will spedily happen, will add 2 representatives and 4 Senators to the same

Miss Harriet N. Austin, editor of the reform paper in Danville, N. Y., devotes a long article to the subject of her making up. The County-Pay of Digratics-Quite a rivaly exists among the applicants throughout the Western States, especially in Ohio, for the office of deputies under United States Marshals to take the census of 1860. The pay of these deputies, by the law, is liberal, and will handsomely compensate for the time and labor required. It is fixed at two cents per head of the population, with ten cents per mile for all necessary travel, ten cents for the statistics of each farm, fifteen cents for each establishment of productive industry, and two cents for each death reported. The Marshal s prohibited from receiving any part of the fees of the assistants, under a penalty of \$1, 000 for each offence. The assistants have five months in which to perform their duties, and, as the districts are restricted to a population not exceeding twenty thousand, and, for utility, may be divided into smaller areas, ample time is given for the work to be sesouably and throughly done.

The Abelitionists of Massachusetts are decidedly to be classed amongst the most rabid of the faustice of the history of popular delusions records. There are no lengths to which they will not go to carry out their insane and mischievious theories. From the encouragement of treason and rebellion, they pass na, turly to midnight outrages ned incendiarism. Here is an example of one of the last exploits in this way, copied from a Boston journal:

Mr. Davis, the Postmaster at Concord, Mass., has been subject to the less of his barn, with hay, machinery, tools and wagon, by the act of an incondingy. The Concord fanatics esteem it a sufficient justification for the set that Mr. Davis was suspected of informing the United States officers where Sanborn was to be found. So that in Concord, to be suspected of a disposition to aboy the laws of the United States, is sofficient ground for burning up a man's property-why not for hanging him .-
